CONVEYORS

We are among the reputed names in the industry for manufacturing and supplying Screw Conveyor to our revered patrons. The offered conveyor is used for conveying of materials, powders while processing them in Spice and fertilizer industries. This conveyor is sturdy in construction, energy efficient and user friendly.

Z type elevators are useful for delicately conveying granular products under most hygienic condition. The overlapping buckets designed ensures no spillage, whereas the specially designed food grade PP buckets eliminates the chances of product contamination. The modular structure of the elevator ensures a high degree of flexibility regarding conveying to horizontal and vertical distances.

Z-Elevator Used for transferring free flow material (from low level to high level) like granules, powder, seeds, pulses, cereals bulk solids, chemicals, rice feed, food, grains, etc. Rigid construction. Chain locking & over load protection, vertical conveying system reduces space problem.

FEATURES

- EXCELLENT PERFORMANCE
- SMOOTH FUNCTIONALITY
- LOW POWER CONSUMPTION

A background image of industrial machinery, specifically a lathe or similar metalworking machine. The image is faded and serves as a backdrop for the text. It shows various mechanical components like a tool holder, a cutting tool, and a rotating workpiece.
