This product is manufactured under the guidance of experts and in accordance with industry defined parameters. Offered range is well tested on various parameters in order to deliver flawless range to the end user. This product is dispatched in perfect packaging material for safe transportation.

INTERMEDIATE BULK CONTAINER (IBC)

The Intermediate Bulk Container is at the core of powder handling system solution. It is designed for rapid filling and emptying with washing off-line. The Intermediate Bulk Container allows all the manufacturing processes to run at the same time for optimum production efficiency. The sizes range from 150 to 3500 liter capacity and are manufactured from Stainless Steel with a hygienic and easy-clean design.

The background of the image is a faded, light-colored photograph of industrial machinery. It features various metal components, including a large cylindrical part in the foreground, a complex assembly of pipes and valves in the upper left, and a control panel with a circular gauge and buttons in the center. The overall tone is professional and technical.
