SILOS

SILOS

It is made of Stainless steel and mounted on a steel structure, depending on size and requirement. Our tanks are designed to withstand the loads associated with heavy through put and are used for:

- Ground Level Storage
- Elevated Silo on Steel Structure
- Load-Out Silo's
- Drive Thru Skirted Silo's

It provides discharge with pneumatic equipment and it provides discharge capacities up to 1000 m³/h It is Suitable for storing pharmaceutical powders, food industry ingredients and other bulk material of similar kind.

The background of the image is a faded, light-colored photograph of industrial machinery. It features various metal components, including a large cylindrical part in the foreground, a complex assembly of pipes and valves in the upper left, and a control panel or sensor unit in the center. The overall tone is professional and technical.
